Wire Journal International 1982 article index

Aluminum rod
"A new automatic coiler for wire rods." January 1982; p. 60.
"The latest generation of continuous aluminum rod lines." February 1982; p. 72.

Annealing
"Conversion to nitrogen-based ferrous annealing at Ameron Steel and Wire." December 1982; p. 62.

Automation
"Automation—a principal put into practice." March 1982; p. 43.
"The jury is still out." April 1982; p. 42.

Business
"Survey of the wire industry." February 1982; p. 38.
"A mutual exchange." February 1982; p. 45.
"Wire industry performance in the 1980's." February 1982; p. 47.

Cable fittings
"Small cable and wire termination." June 1982; p. 44.

Coatings
"Benefits of hard coatings in wiredrawing." January 1982; p. 56.
"Production of thin zinc coatings on wire emerging vertically from the zinc bath." February 1982; p. 52.
"Dry powder coating systems." May 1982; p. 73.
"New life for blocks, capstans and sheaves." September 1982; p. 111.

Cold heading
"The effect of annealed vs. non-annealed boron-treated steel on cold headers." April 1982; p. 70.

Computer control
"Plugging cost-estimating into a minicomputer." July 1982; p. 58.
"Wire line information collection and display systems." August 1982; p. 68.
"Computer analysis of stranded conductor design factors necessary to prevent C.U.S. and birdcaging in aircraft wire." November 1982; p. 72.
"SECAP—computer-controlled extrusion system." October 1982; p. 68.

Copper rod
"Production of high carbon wire rod from continuously cast billets." January 1982; p. 66.
"Analysis of the factors affecting the drawability of copper rod." January 1982; p. 74.

Crosslinking
"Crosslinkable polyethylene for wire and cable: an update." May 1982; p. 60.

Dies, wiredrawing
"Die rooms: The renaissance begins." January 1982; p. 46.
"Diamonds: Are they forever?" January 1982; p. 48.
"Cemented carbide: The process and the product." January 1982; p. 54.

Editorial
"Steel subsidies." January 1982; p. 4.
"Defining safety." "Wire 82." "Policy." "Feedback." July 1982; p. 96.
"The debate continues." August 1982; p. 4.
"A steel barrier?" September 1982; p. 6.
"Meeting the challenge." October 1982; p. 6.
"Alive and well." November 1982; p. 4.
"Calling the shots." December 1982; p. 4.

Energy conservation
"The energy-saving (ES) wire enameling oven." April 1982; p. 86.

Extruding
"A solution to extruder screw wear in the wire and cable industry." May 1982; p. 94.
"An update on the development of Conform." September 1982; p. 168.

Fabrication
"Bending, but not breaking." April 1982; p. 40.
"The jury is still out." April 1982; p. 42.
"Putting quality control to work." April 1982; p. 44.

Fasteners
"Going metric without going insane." November 1982; p. 31.
"Facing the fastener blues." November 1982; p. 36.
"Surgical staples: unique uses for unique fasteners." November 1982; p. 44.

Fiber optics
"Unique applications of fiber optics." August 1982; p. 56.
"Optical fiber cable: The designer's dilemma or a clear choice." August 1982; p. 58.
"The biggest hurdle." August 1982; p. 64.
"A fragmented industry." August 1982; p. 65.
"Japan's growing optical fiber communications market." September 1982; p. 97.

Furnaces
"High-convection bell-type furnace plants for the steel wire industry." February 1982; p. 58.

Galvalume wire
"Galvalume wire." July 1982; p. 66.

Galvanizing
"Economics of strand wire galvanizing." March 1982; p. 58.

Government regulations
"A question of duty: A history of American trade policy." June 1982; p. 41.
"The safety silence." July 1982; p. 49.

Inks
"A matter of necessity." May 1982; p. 46.
"The art of color-coding." May 1982; p. 54.
"Coming of age." May 1982; p. 57.
"The chemistry of inks." May 1982; p. 150.

Insulation materials
"Crosslinkable polyethylene for wire and cable: an update." May 1982; p. 60.
"The effects of antimony-based flame retardant systems on physical characteristics in plasticized PVC compounds." August 1982; p. 74.
"Integral shielding system—updated." September 1982; p. 184.

Machinery, wiredrawing
"No discernible trend." July 1982; p. 57.
"Double twist bunchers for steel wire." December 1982; p. 76.
"A guide to the selection of cabling machinery." July 1982; p. 72.

Management strategy
"Practical management: a return to basics?" May 1982; p. 101.
"Deriving tax benefits from wire and cable exports." September 1982; p. 140.
"Predicting the future success of a merger." September 1982; p. 211.
"Improving productivity in an insulated wire and cable plant: A managerial approach." December 1982; p. 54.

Measuring, Testing & Inspecting
"Testing wire insulation for abrasion resistance." March 1982; p. 40.
"Sine wave spark testing on the extrusion line." March 1982; p. 42.
"Automation—a principle put into practice." March 1982; p. 43.
"Using corrosion-resistant wireline during oil and gas well testing." April 1982; p. 50.
"A new approach to concentricity measurement." June 1982; p. 56.
"Wire line information collection and display systems." August 1982; p. 68.
"Metering industrial gases." October 1982; p. 46.

Meetings and exhibitions
"IWCS magnetism remains strong." January 1982; p. 45.
"The 8th International Wire Exhibition." March 1982; p. 73.
"WireAsia 82." August 1982; p. 39.
"Showing off in Basel." August 1982; p. 48.
"Wire Association International's 52nd Annual Convention and Exhibition." September 1982; p. 37.
"WireAsia opens new markets." November 1982; p. 46.
"52nd Annual Convention and Exhibition." December 1982; p. 36.

Microprocessors
"Applying microprocessors to wire drawing machines." February 182. p. 64.
"A learning, self-adjusting, microcomputer-based industrial process control system." April 1982; p. 60.
"Use of microprocessor-based systems in wire line control." May 1982; p. 110.
"Weighing, recording and tally printing with low cost microprocessors." June 1982; p. 66.
"Wire line information collection and display systems." August 1982; p. 68.

Pickling
"The improved vibratory pickling process." March 1982; p. 50.
"The continuous pickling and cleaning of steel wire in-line with other processes." June 1982; p. 60. *Continued*

Plan Ahead for '83

Plan ahead now for all your wire die needs. You'll save yourself a lot of work and worry, you'll save your company money and you'll be be able to deliver to your customer on time. Get it together for 1983.
Happy New Year!

1982 Article Index. . .

Plant engineering
"Low down on high tech." October 1982; p. 31.
"The maintenance discipline." October 1982; p. 36.
"Noise exposure measuring errors: can you afford them." October 1982; p. 41.
"Metering industrial gases." October 1982; p. 46.

Prestressing
"Ultrasonic cleaning of high-carbon prestressing strand to improve the bond development between concrete and steel." May 1982; p. 104.
"Prestressing drawn products from control cooled wire rods rolled from continuously cast billets." October 1982; p. 74.

Productivity
"Productivity maximization system." November 1982; p. 50.

Quality control
"Putting quality control to work." April 1982; p. 44.
"Increasing efficiency of wire production plants." September 1982; p. 176.

Spring wire
"Factors controlling the reliability of 17-7 PH spring wire." August 1982; p. 78.

Steel rod
"Production of high carbon wire rod from continuously cast billets." January 1982; p. 66.
"Improving the characteristics and performance of high-carbon wire rod." July 1982; p. 86.
"Raritan River's approach to producing quality rods." September 1982; p. 132.
"Valfil: the first months of operation." September 1982; p. 104.
"Properties of continuously cast low-carbon steel for fine drawable and cold forgeable wire rods." October 1982; p. 60.
"High quality bars and wire rods produced by continuous casting." November 1982; p. 58.
"Successful practices for drawing mechanically descaled steel rod." November 1982; p. 68.
"Effect of Stelmor-cooled rod on wire flattening operations." December 1982; p. 70.

Technical conferences
"Fiber optics theme of wire and cable symposium." October 1982; p. 54.

Welding wire
"A guide to the selection of welding wire." June 1982; p. 49.
"Selecting welding wire for HSLA steels." December 1982; p. 31.

Wire breaks
"Mechanisms of wire breaks." May 1982; p. 86.
"Copper wire breaks: an update." July 1982; p. 96.
"Analysis of rod defects and resulting failures." September 1982; p. 192.
"Copper wire breaks during wiredrawing." September 1982; p. 118.

Wiredrawing
"Analysis of the deformation process during wiredrawing by means of the finite elements method." March 1982; p. 64.
"From liquid metal to 1.5 mm diameter wire: the Properzi technique." September 1982; p. 150. ■

DE LISI
SAN SEVERO

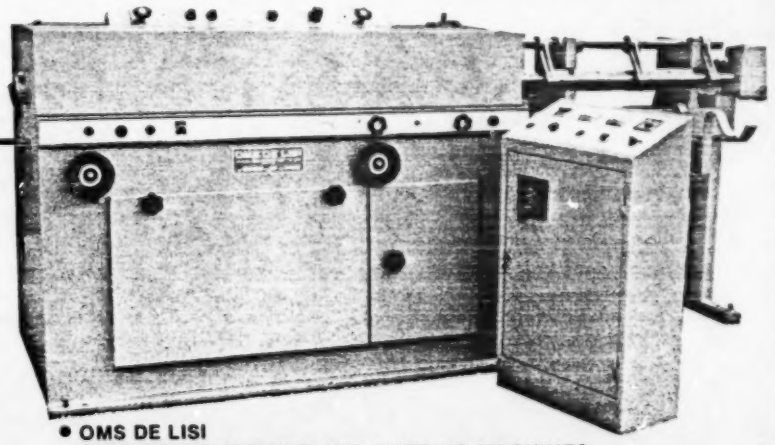
STRAIGHTENING & CUTTING

KPA
U.S. Sales Agent

• AUTOMATIC SHUTDOWN • LENGTH CHANGES IN SECONDS
• VARIABLE SPEED • LARGE DIAMETER CAPACITY RANGE

POLI SERIES:
4 models for simple, easy, accurate straightening of wire diameters from .039"-.787", at speeds up to 390 ft./min.

SIDER SERIES:
5 models for production speeds up to 490 ft./min., and the opportunity to use a 14 pc. "modular" system to adapt the machine to your particular requirements.



• OMS DE LISI
